

# Cal OES Daily Situation Report

## May 15, 2017

In 1962, President Kennedy proclaimed May 15 as National Peace Officers Memorial Day and the calendar week in which May 15 falls, as National Police Week. Established by a joint resolution of Congress in 1962, National Police Week pays special recognition to those law enforcement officers who have lost their lives in the line of duty for the safety and protection of others.

### **Oroville Dam Auxiliary Spillway Incident**

On 05/14/17 at 1624 hours, the California State Warning Center (CSWC) was advised by the Department of Water Resources (DWR) that they will reduce flow to the Feather River on 05/15/17 at 0900 hours.

- Total flow to the Feather River will decrease from 26,000 cfs to 23,500 cfs.
- Hyatt Powerplant outflow will remain at 5,000 cfs.
- The Oroville Dam Flood Control Spillway flow will be reduced from 25,000 cfs to 22,500 cfs.
- These changes are necessary to manage Lake Oroville's water surface elevation and to safely close the Flood Control Spillway.
- DWR anticipates additional flow reductions this week and will send notifications as these operational changes are finalized.

Per the DWR Flood Operations Center and California Data Exchange Center (CDEC) as of 05/15/17 at 0900 hours:

- Inflow: 12,250 cfs.
- Outflow: 29,313 cfs.
- The current lake elevation is 838.05 feet.

## **Cal OES INLAND REGION**

- See 2017 Statewide Winter Storms Slides

## **Norovirus Outbreak, Yolo County**

Yolo County has had a recent Norovirus/Gastrointestinal Outbreak that is affecting numerous schools in the county.

- 32 schools have been affected.
- 952 students, teachers, and staff are ill with stomach cramps, vomiting, and/or diarrhea in schools throughout Yolo County.
- The California State Warning Center (CSWC) and California Department of Public Health (CDPH) continue to monitor the situation and will provide updates as they are received.

## **2017 February Storms**

### **Cal OES Coastal Region**

#### **Pfeiffer Bridge Incident, Monterey County**

California Highway Patrol (CHP) and Caltrans had a hard closure on the Pfeiffer Bridge on HWY 1 at mile marker 45.52 (SB Sycamore Canyon and the Bridge) due to a crack in the bridge.

- Backup air medical transport plans have been developed for medical emergencies through Cal OES Law Enforcement Branch.
- All businesses north of the Pfeiffer Canyon Bridge closure are open to the public.

Per the Cal OES Coastal Duty Officer (CDO), as of 04/27/17, Hwy 1 from the south is closed at Ragged Point and is open at specific intervals to local traffic only. The bridge has been demolished so the road is closed and estimates for some access from the north is late September 2017.

# **WEATHER SYNOPSIS BY REGION**

## **NORTHERN CALIFORNIA**

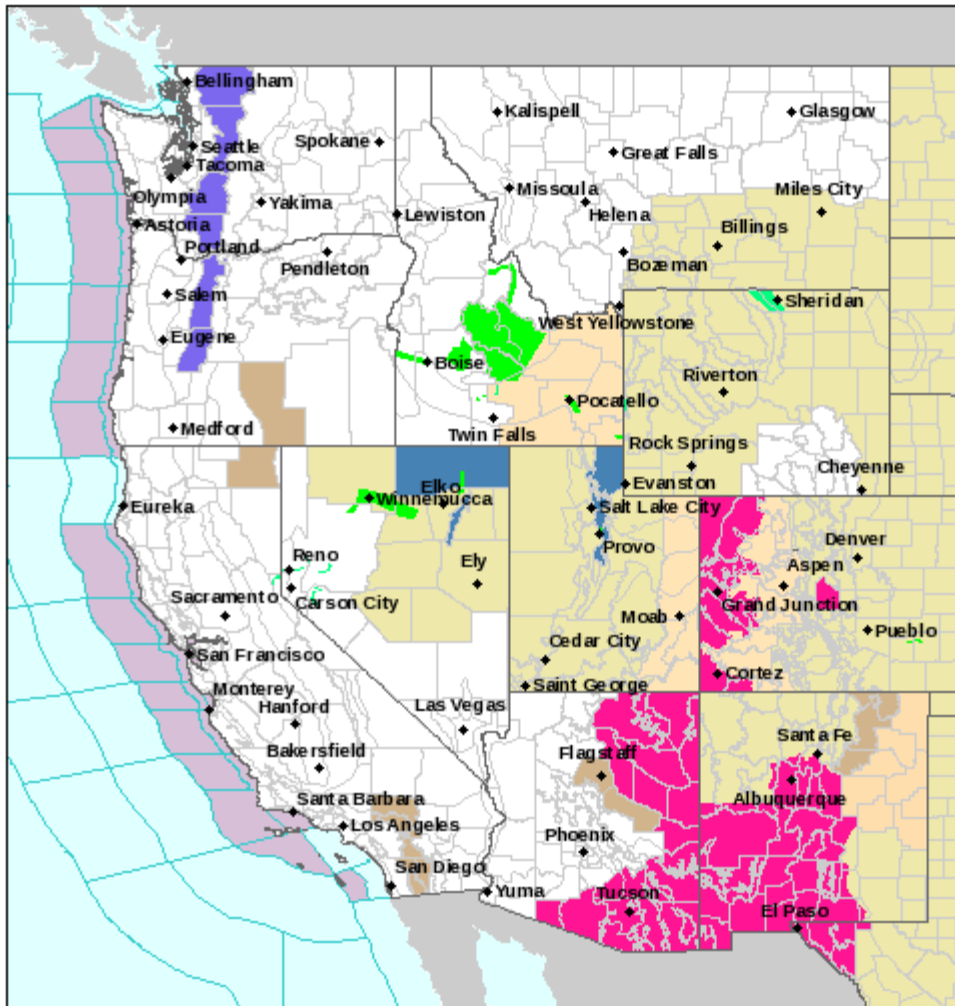

A low pressure trough over California will be moving east today with a short lived high pressure ridge overhead later today and overnight. Tuesday low pressure will be moving south through the Pacific NW on its way into the Great Basin. This weather system will bring cooler temperatures, cloudiness and some precipitation to the region through Tuesday night. Strong high pressure will begin returning to the region by late Wednesday and will continue to dominate the weather pattern for later this week through the weekend. We will see our warmest inland areas go from the mid and upper 60s Tuesday to the mid 90s for the weekend. There will be a bit of gusty north wind today and gusty S to W winds Tuesday, but as the high pressure strengthens later this week, moderately strong northerly winds are expected to develop, especially in all the usual favored areas. The strongest gusts later this week should be around 30 mph.

## **SOUTHERN CALIFORNIA**

An area of low pressure over Southern California will bring scattered showers and isolated thunderstorms to the Sierra through this afternoon. There will also be isolated showers across Southern California through this afternoon. Most locations will receive less than a quarter inch of rainfall. The snow level will be around 6,000 feet. Another area of low pressure will drop into the Pacific Northwest from Canada Tuesday and then into the Great Basin Wednesday causing temperatures to remain 5 to 10 degrees below normal. Maximum temperatures will be in the 50s to low 60s across the mountains and mid 60s to mid 70s in the valleys through Wednesday. These two low pressure areas will also bring westerly winds of 20 to 30 mph with gusts to 50 mph to the mountain ridges and desert passes through Wednesday afternoon. A significant warming and drying trend will take place Thursday through this weekend as a ridge of high pressure builds into California from the Pacific Ocean. North winds of 20 to 30 mph with gusts to 50 mph will surface across the South Coast of Santa Barbara and the Grapevine Wednesday night. There will be northeast to east winds of 15 to 25 mph with gusts to 40 mph across the mountains and below the canyons and passes of Southern California Thursday morning through Friday morning.
